1-Yr	<b>16.89</b>	<b>16.03</b>	10.58	15.98
5-Yr	<b>9.65</b>	<b>8.85</b>	5.70	9.30
Since Inception	<b>8.75</b>	<b>7.89</b>	3.45	6.92

Performance figures shown “gross” of fees do not reflect the payment of investment advisory fees and other expenses. Net Returns are reduced by the investment advisory fees and any other expenses the client may incur in the management of its investment advisory account. To calculate the net performance for non-fee paying accounts in the composite a fee of 1.00%, which is the highest fee charged to clients in this strategy, has been applied to the client’s gross performance.

‘Tactical Competitor Avg’ is the US Fund Tactical Allocation (primary benchmark). Tactical allocation portfolios seek to provide capital appreciation and income by actively shifting allocations between asset classes. These portfolios can have material shifts across equity regions and bond sectors on a frequent basis. ‘Moderately Aggressive Competitor Avg’ is the Morningstar Moderately Aggressive Target Risk TR USD (secondary benchmark). Moderately aggressive allocation portfolios seek to provide capital allocation and income by investing in three major areas: stocks, bonds, and cash. These portfolios typically hold larger positions in stocks than moderate-allocation portfolios. Prior to 9/30/2023, the composite was compared against the Tactical Competitor Avg (primary benchmark) and the Morningstar Aggressive Target Risk TR USD index (secondary benchmark). On 9/30/2023, the secondary benchmark was changed from the Morningstar Aggressive Target Risk TR USD index to the Morningstar Moderately Aggressive Target Risk TR USD, which more closely aligns with our portfolio. The Morningstar Aggressive Target Risk TR USD index returns are not shown in the chart above.

Spire Wealth Management, LLC is a Federally Registered Investment Advisory Firm. Securities offered through an affiliated company, Spire Securities, LLC., a Registered Broker/Dealer and member FINRA/SIPC. Registration with the SEC does not imply their approval or endorsement of any service provided by Corbett Road. This presentation is based on the views of Corbett Road. Other organizations or persons may analyze investments and the approach to investing from a different perspective than that reflected in this presentation. Nothing included herein is intended to infer that the approach to investing discussed in this presentation will assure any particular investment results.

This presentation is not to be considered investment advice and is not to be relied upon as the basis for entering any transaction or advisory relationship or making any investment decision. All investments involve the risk of loss, including the loss of principal. Past performance is not an indicator of future results.

Investors should consider the investment objectives, risks, charges, and expenses of each strategy before making an investment decision. This and other information about the strategies presented, including additional risks, are contained in Corbett Road's Form ADV Part 2 available at <https://adviserinfo.sec.gov/firm/summary/305063>, which you should read carefully before you invest. Additional information pertaining to ETFs used for investment purposes can be found in the prospectus for each ETF.

Gross performance is defined as the performance results of a portfolio before the deduction of all fees and expenses. Net performance is defined as the performance results of a portfolio after the deduction of all fees and expenses that a client or investor has paid or would have paid in connection with the adviser's services to the relevant portfolio, including, if applicable, advisory fees, advisory fees paid to underlying investment vehicles such as MFs and ETFs, and payments by the investment adviser for which the client or investor reimburses the investment adviser. Custodian fees paid to a bank or other third-party organization for safekeeping funds and securities are excluded from the calculation of net performance. Advisory fees charged to Corbett Road clients, are described in Corbett Road's Form ADV Part 2 and Part 3 available at <https://adviserinfo.sec.gov/firm/summary/305063>. Non-fee-paying accounts reflect the deduction of the highest possible fees for each strategy to calculate net performance.

In addition to fees paid to Corbett Road, entities advising mutual funds, exchange traded securities, and pooled investment vehicles, will also charge underlying fees and expenses for managing the investment product.

Investors cannot invest in a market index directly, and the performance of an index does not represent any actual transactions. The performance of an index is not an actual client portfolio which is subject to the deduction of various fees and expenses which would lower returns.

### Use of Indicators

Corbett Road's quantitative models utilize a variety of factors to analyze trends in economic conditions and the stock market to determine asset and sector allocations that help us gauge market movements in the short- and intermediate term. There is no guarantee that these models or any of the factors used by these models will result in favorable performance returns. Models used by Corbett Road are reviewed periodically. Inputs, factors, and indicators used in these models are subject to change.

### Core Demand MX Strategy

All information is based on sources deemed reliable, but no warranty or guarantee is made as to its accuracy or completeness.

ESG investing involves additional risk, including the risks stemming from the ESG ratings which are provided by a third party that conducts an analysis and screening process that looks for companies that adhere to certain ESG standards. The Strategy intends to invest in companies with measurable high ESG ratings relative to their sector peers, and screen out particular companies that do not meet their ESG criteria, which may affect the Strategy's exposure to certain companies or industries and cause the foregoing of certain investment opportunities. The Strategy's returns may be lower than other funds that do not seek to invest in companies based on ESG ratings and/or screen out certain companies or industries. In the Core and Core TX Demand strategies, Corbett Road Capital Management seeks to identify companies that it believes may have higher ESG ratings, but investors may differ in their views of ESG characteristics. As a result, the Strategy may invest in companies that do not reflect the beliefs and values of any particular investor.

Corbett Road Investment Management ("CRIM") is a Subchapter S Corporation. CRIM Claims compliance with the Global Investment Performance Standards (GIPS®). The firm has been independently verified for the periods January 1, 2014 to December 31, 2021. The Opportunity Composite undergone a performance examination for periods from 1/1/2017 – 12/31/2021.
